

Zecar® has plenty of space

At 1.76 metres tall, Zecar® is as visible and sturdy as any 4x4

It's short at 3m (shorter than a Ford Ka) making it very easy to park and drive

Zecar® has space for five adults

And it even has plenty of luggage space (enough for everyone's golf clubs, for example)

Stevens Vehicles Ltd

An electric car with enough room for five adults

Zecar

**Five seat, zero emission,
electric city cars**

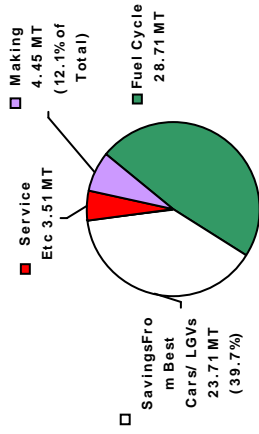

[Info@stevensvehicles.co.uk](mailto:info@stevensvehicles.co.uk)

Zecar® provides lots of savings and benefits...

- A penny a mile 'fuel' costs
- No congestion charges
- Free parking across much of London
- Free re-charging points in many car parks
- Cheap city-centre garaging
- Very cheap insurance
- Zero road taxes
- 100% business tax write-off
- Substantial 60 mile daily urban range
- Maintenance-free AC electric motors
- Maintenance-free sealed gel batteries
- Cheap to service—standard vehicle parts
- Two year unlimited mileage warranty
- 30 year life and upgradeable technologies
- And Zero Emissions: no dioxins, no toxins, no pollutants, no particulates, no carbon derivatives, no greenhouse gases

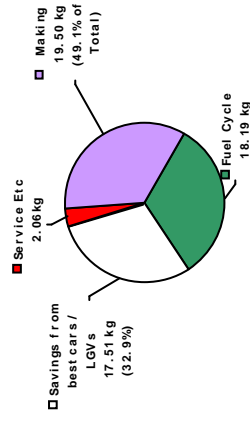

The very best for the environment

Zecar Lifetime Greenhouse Gas Emissions

Zecar® is manufactured right here in Britain, based on a design for a low environmental impact vehicle—from well to wheel—that is also economically viable. The design incorporates few components and minimal mod cons, leveraging existing proven parts and technologies as far as possible. This design philosophy is in contrast to the 'green' approach favoured by major manufacturers for complex high-impact solutions, and, combined with its light weight means that Zecar® emits up to 60% less toxins and 90% less greenhouse gases during manufacture and over its lifetime than even the best-in-class mass-produced family cars.

Zecar Lifetime Toxic Releases

Everyday ease of use, reliable and simple to service

Zecar's® design simplicity and use of proven and reliable parts makes it simple, easy and cost-effective to run and service.

On a daily basis, Zecar® is re-charged by simply plugging into any normal 3 pin plug. Lastly, for peace of mind, all Zecars® come with a two year unlimited mileage warranty.

....from only £15,000....
