## *Zevan® provides loads of savings and benefits...*

£7,000 a year typical savings per vehicle

A penny a mile 'fuel' costs

No congestion charges or fines

Free parking or reduced parking fines across London

Very cheap insurance

Zero road taxes

100% corporation tax write-off

Substantial 60 mile daily urban range

Maintenance-free AC electric motors

Maintenance-free sealed gel batteries

Cheap to service—standard vehicle parts

Two year unlimited mileage warranty

30 year life and upgradeable technologies

And Zero Emissions: no dioxins, no toxins, no pollutants, no particulates, no carbon derivatives, no greenhouse gases

## **Best for the environment, good PR and great advertising**

### **Zevan Lifetime Greenhouse Gas Emissions**

Zevan® is a new electric vehicle manufactured here in Britain, based on a design for a low environmental impact vehicle—from well to wheel—that is also economically viable. The design incorporates few components and minimal mod cons, leveraging existing proven parts and technologies as far as possible. This stands in stark contrast to the 'green' approach favoured by some manufacturers for complex high-impact solutions. This design philosophy, combined with its light weight means that Zevan® emits up to 60% less toxins and 90% less greenhouse gases during

### **Zevan Lifetime Toxic Releases**

manufacture and over its lifetime than the best-in-class mass-produced vehicles made in 2006.

## **Everyday ease of use, reliable and simple to service**

Zevan's® design simplicity and use of proven and reliable parts makes it simple, easy and cost-effective to run and service. And on a daily basis, Zevan® is charged by simply plugging its mains lead into a normal

3 pin plug.

And all Zevans® come with a two year unlimited mileage warranty.
